

Crater Health District Immunization Clinics

Immunizations are an important way to prevent the spread of disease and promote health within the community.

The Crater Health District immunization clinics are open for babies, children, adolescents, pregnant women and adult appointments. We have the COVID-19 vaccine at each health department.

Below is the schedule for the immunization clinic, please note:

- **Immunizations are by appointment.**
- **Walk-ins are welcome for the COVID-19 vaccine only.**
- **Bring only the child(ren) receiving immunizations.**
- **Bring shot records and insurance information.**
- **Call the number below each the health department to schedule an appointment.**
